Baldwin's

57th. YEAR 1946

The New Everbearer **MINNESOTA 1166**

"Summertime's most Delicious Fruit"

CUMBERLAND

*"The Business Blackcap"
As true to-day as Ever
(See Page 12)*

O.A.D. BALDWIN NURSERY, BRIDGMAN, MICHIGAN

Baldwin's Greeting to Fruit Growers

This year all Americans are coming back to peace with the determination to rebuild and progress for a better living and a better country than we have ever had in the past. Every industry and business has an important part in this progress. Everything that has to do with farming, fruit growing and home gardening is more important than ever because these help, in great measure, to more firmly establish those permanent, happy, healthful homes that so many Americans want.

Through the war years, the nursery business has continued to produce stock of finest quality—but the quantity has necessarily been limited, and will continue to be for the present year on many things. Excellent new varieties in many fruits have been developed and are being offered now, such as Stream-

liner Everbearing Strawberry, Seneca Grape, and Thornless Boysenberry.

During the war home fruit gardens proved to be a necessity and gardeners found they paid profits in an assured supply of healthful food and in money saved. These same advantages will be just as true in the coming peace years.

Food and food products is one of the eight industries in the United States predicted to expand most in the next two years. This means that the far-seeing commercial fruit grower will make his plantings now and be ready with paying crops of fruit.

Baldwin Quality has meant first quality to fruit growers for over 50 years. It is up to us to maintain that high standard of quality for the continued success of both ourselves and our customers. You can depend on us to properly take care of your order. Your business is appreciated and if we can be of help,

either before you order or after your shipment is received, please feel free to write us. As we have mentioned, many kinds of nursery stock are still scarce, and although we have a reasonably good stock of all varieties now, the earlier you order the better we can supply you.

BALDWIN'S GUARANTEE

For 57 years the Baldwins have backed up this guarantee to the entire satisfaction of their thousands of customers everywhere. We guarantee every plant, tree, shrub or bulb sold by us to be first class, free from injurious disease or insects, and true-to-name. We further guarantee our stock to reach you in good growing condition by express or parcel post and will replace free of charge any that does not, when we are notified within 5 days of receipt of stock. Also we will, on proper proof, replace or refund the purchase price of any stock that proves untrue to name. We are, of course, not liable for more than the purchase price of stock ordered.

All contracts and agreements are made subject to flood, drought, fire, frost, crop failure or other causes beyond our control.

O. A. D. Baldwin

G. W. R. Baldwin

Please Note—

Read "Instructions for Ordering" on back of order blank. They save time and avoid errors.

All prices F.O.B. Bridgman, Michigan (except where noted).

THIS VALUABLE PLANTING GUIDE

FREE!

To every customer who sends us an order of \$1.50 or more by May 1st, 1946, we will send this Planting Guide FREE.

This 20-page "How to Plant" booklet is packed with practical information on plant-

ing, pruning, fertilizing, spraying and general care of most every kind of nursery stock. It tells the story in pictures—you cannot go wrong. Regular price: 10c.

KEEP YOUR VEGETABLE GARDEN FREE FROM INSECTS AND DISEASES

Use our Bug-Dust-O-Cide. Contains Rotenone. Has given highly satisfactory results. Put up in handy dust gun. See full description on page 26.

CASH DISCOUNTS FOR EARLY ORDERS

10% on orders sent by Feb. 5

These discounts apply to all prices in the catalog except special collections and where otherwise noted, or special prices quoted by letter. Cash in full must be sent with order.

Add Extra Stock for the Amount of Discount if You Prefer.

STRAWBERRIES

Our Specialty For Over 50 Years

Strawberries Will Produce Quick Crops and Profits

You can make money every year with strawberries. They show a record of good profits through "good" and "bad" years. Strawberries are easy to grow, produce a big crop in small space, and remember, they are the only fruit that will bring you a full crop in one year from planting.

Start with good plants. Years of experience are behind our plants—guaranteed true-to-name and in healthy planting condition when you get them. You cannot get better anywhere at any price. Be certain of good growth and good crops. We offer only those varieties—both old and new—that we know are dependable and profitable. We urge you not to delay your order. This year of all years—plant strawberries.

ROBINSON The New Super Berry

Last year we said Robinson was a Super Berry and that was saying a lot. But, by the way, it has proven itself in leading fruit sections this past year we were not saying too much. A strong, vigorous grower, it produces an unbelievable number of new plants in most any soil. This insures a big crop and the berries are above average in size because each plant usually has only one fruit stem and has lots of vitality to produce these big berries.

Quality—Color—Firmness—Size

Robinson berries are finest flavor, good glossy red color, big in size and firm. All these points make it an ideal berry for marketing near by or far away at the top price, and they also make a berry that is just what you want in your garden to eat and can.

Makes More Plants—Bears More Berries

Many growers say that Robinson is the one berry that may take the place of Premier for market because of more certain crops of finest looking fruit. For home use its quality and flavor are better than Premier. It begins to ripen 3 or 4 days later and its big berries hold their size over a long picking season. Originated in this famous Michigan strawberry section and tested here for about 5 years, it was generally introduced last year. Robinson has fully proven its reputation as one of the best strawberry varieties.

Robinson

PREMIER

STILL THE GREAT COMMERCIAL BERRY

PREMIER is one of the most profitable strawberry varieties grown today. It puts a big crop of fine appearing berries on the market first every time and does it in spite of frosts that often kill other varieties. These two facts are PREMIER'S greatest points of superiority as a dependable money-maker. PREMIER eliminates crop failures, and by ripening five days to a week earlier than any other kind, it never fails to command high prices. Always produces its good crops on a wide range of soils and climates throughout the country.

Actually millions more Premier plants have been sold the past few years than any other kind. Premier continues to be widely planted in larger quantities than any other early berry. Growers know that PREMIER is an unfailing money-maker every year. Consumers demand it. You will need to grow PREMIER—and plenty of them—to be in the berry business profitably.

Order at once so we can reserve yours. Our plants are guaranteed true-to-name, healthy and vigorous. You can depend on them to make money.

Premier

Why Premier is Better

1. First to ripen.
2. Remarkably frost resistant.
3. Long fruiting season.
4. Unusually large crops.
5. Size above average.
6. Bright, glossy, solid color.
7. Uniform, attractive shape.
8. Firm berry, excellent shipper.
9. Buyers pay a big premium for Premier.

Earliest of All— Frost Proof

If you want to make more money, plant Premier this spring!

Grand Champion

Remarkably Long Fruiting—40 Days

Tall vigorous plants protect early blossoms from frost and also keep the last berries fresh and bright. Unusually frost resistant; ripens over an unbelievably long season, beginning a few days after Premier—sometimes lasts 40 days. Big crops, good quality, fine flavor and great size. We recommend Grand Champion for your fruit garden.

Outstanding for Market and Home Use

ries—and their flavor is as superior as their appearance. Recommended for general northern planting—a hardy, vigorous grower. Firm fruit makes a good market berry. And remember, Clermont berries are unusually fine flavored.

Clermont is really worth planting everywhere. Introduced by N. Y. Experiment Station about 10 years ago it has proven outstanding for exceptionally heavy plant growth and big crops of large, smooth, fine colored berries. You can't help but exclaim over the unusually brilliant, beautiful appearance of these ber-

Catskill

Best and Most Profitable Midseason Berry

It is only once in a while that a new variety proves so satisfactory in every way and so profitable as Catskill has done. Its biggest feature is its enormous crops of big, fine, bright scarlet, green-capped berries. Picking begins just after the early kinds and Catskill berries are of great size and firmness to the last. Plants are unusually strong, hardy, healthy little affected by diseases and will produce their great yields in all soils and seasons. With Premier for early and Catskill for midseason to late, you have a combination for top prices over the best of the strawberry season.

Enormous Crops of Fine, Big Berries

Such a splendid midseason berry is needed to follow the fine very early varieties Premier, Dorsett and Fairfax. CATSKILL does it successfully, and is making money for everyone who grows it. It will pay you and we recommend it fully. For home garden, Catskill is ideal because its fine flavor, rich color and large size are just right for canning and preserving or fresh for table use.

New York Experiment Station, the originator, says:—"Catskill is notable for being very large and very productive. Plants are vigorous and free from leaf-spot. Ripens later than Premier and is of better quality as well as being larger. Much more productive than Dorsett and Fairfax."

**BE SURE TO PLANT CATSKILL
THIS SPRING**

1000 for	\$17.50		

Dorsett

DORSETT

For Big Early Crops

One of the best of all varieties for big regular crops. You can depend on it for good profits every year. Dorsett has been widely planted in all fruit sections and has come through with paying crops every time. We advise you to plant it. You need Dorsett to get the most out of your berries.

Every Desirable Strawberry Feature

Experiment Stations in Michigan, Illinois, New York, and Washington, D. C., do not hesitate to say that it is superior to Premier in size and quality. Commercial growers like Dorsett because it makes money. It does so because its firmness, big size, fine flavor and wonderfully bright color are just what both wholesale buyers and the housewife want. Originated by the U.S. Dept. of Agriculture at Washington, 1923, it has proven superior in these points.

1. Ripens almost as early as Premier.
2. Size and yield above average.
3. Very vigorous grower, making almost as many plants as Blakemore—assuring good crops even in poor seasons.
4. Firmer berries—fine shipper.
5. Light red, glossy berries that buyers pay more for.
6. Flavor superior to any other unless it is Fairfax.

With these features combined in one berry, you have the ideal berry for home or commercial use. You will make no mistake in a good planting this spring. We have a stock of fine, genuine Dorsett. Don't wait—there is a big demand.

DORSETT PRICES

New **STREAMLINER** *Everbearer*

Proving Satisfactory From Coast to Coast

STREAMLINER is as new and modern as its name. New because this is only the 3rd year of general sale, and modern because it has all these good points we want in an everbearing strawberry today:

- **Delicious, very sweet, real strawberry flavor.**
- **Very hardy, productive plant.**
- **Rich, radiant, solid red color all the way thru.**
- **Excellent for canning and freezing.**
- **Probably the very largest of all strawberries.**

This year STREAMLINER will be available in limited quantity from coast to coast. You will want to be among the first in your neighborhood to have this fine Everbearer—a really wonderful all around strawberry. Strawberries are one of the finest frozen fruits in home or commercial freezers and this new berry is especially delicious because it is naturally so sweet.

Big Round Berries Deliciously Sweet

Not a heavy plant maker, but makes enough to produce plenty of fruit. Berries are round in shape and firm in texture—presenting a fine appearance on the market. You will want to get started with STREAMLINER this spring—have a full crop this summer and fall. The supply of plants is still limited and the price a little more than other everbearers but this NEW STREAMLINER is worth it. ORDER YOURS EARLY.

Streamliner

FAIRFAX—Early

Leads All In Firmness and Quality

Like Dorsett, Fairfax is a superior berry, particularly in firmness and flavor. Often called the most deliciously flavored of all. Berries are very firm and of large size. Color is rich dark red, turning darker after picking. Individual plants unusually large, vigorous and healthy.

Which to Plant—Dorsett or Fairfax?

Many ask this question. Both are wonderfully fine berries. Both are of superior size and flavor, making either desirable for home gardens. The lighter, more attractive color of Dorsett may make it more profitable for the general market. But the somewhat larger size and exceptional quality of Fairfax are often desirable in the home garden. **BE SURE TO PLANT SOME FAIRFAX THIS SPRING.**

Gem The Dependable Everbearer

Make Money This Fall With Gem

Gem is the everbearer fruit growers have been looking for, because, unlike all other everbearers, it is an excellent plant maker on good or poor soils and in wet or dry seasons. This fact means that it can be depended on for good crops every year. Here we have a really fine fall berry of good size, fine flavor and unusual firmness.

Productiveness—Flavor—Firmness

1. **Productiveness.** GEM makes so many more plants than other everbearers that it produces many more berries.
2. **Flavor.** A true strawberry flavor—something most everbearers don't have.
3. **Firmness.** Remarkably firm—only everbearer that reaches market in really first class shape.
4. **Profits.** Because of size, firmness and sure crops—good profits are certain.

MICHIGAN EXP. STATION SAYS:

"Gem is certainly a wonder as far as plant making is concerned and it certainly bears well."

You can plant Gem with full confidence of a full fall crop and good profits.

Everbearer

MASTODON

First Sold in 1925—Still a Favorite

Everyone wants and needs a good everbearer that can be depended on to produce plenty of good fruit regularly in the late summer and fall. Mastodon has shown year after year that it will do this in all sections and under most any soil and weather conditions. It is entirely satisfactory for the home garden or commercial patch. Our Mastodon Plants are guaranteed true-to-name and will do these things for you. Through years of proper selection and propagation they are superior in vitality and productiveness. The berries are "Mastodons" in size.

Plant plenty Mastodon and have good fruit to sell at top prices this summer and fall. ORDER YOURS TODAY.

**Do Not Wait Longer
To Plant This Better
Summer Berry**

The New **Minnesota 1166** *Everbearer*

THE FLAVOR IS SIMPLY SATISFYING

Minnesota 1166 is a heavy-yielding Everbearer. This past season the sturdy plants were loaded with great berries from July until into November. They sold for \$10.00 and \$12.00 for a 24-pint crate at wholesale. Think of it! Back in 1942 when prices were lower, 1,200 plants set in April had made \$500 by November 18th. We think Minnesota 1166 is about the finest and heaviest producing Everbearer we have seen.

Ripens Over Long Fruiting Season—July to November

Berries are rich, solid, dark red all the way through. No green tips or spots. Large size, with a rich, sweet, mild flavor. Firm and easy to hull. Very good plant maker—better than

Mastodon and about like Gem. Originated by the Minnesota Expt. Station, this everbearer is one of the hardiest berries grown.

Easy to Grow in Any Garden

If you plant Minnesota 1166 this spring you can enjoy fresh Strawberries from your own garden this summer. They are delicious, healthful and economical—summertime's most delicious fruit. Plants are in big demand because of its outstanding performance, so order yours early.

Grow RHUBARB

Both Are Delicious Quick-Frozen Foods

Rhubarb and Asparagus should be in every garden because they are delicious and healthful. Everyone needs more of them both fresh and canned. Both are so easy to grow and there is always space around the edge of the garden for enough roots to provide all you need. There is good money in growing asparagus and rhubarb for the fresh or canning market. More and more people are finding them a source of extra income, even with small plantings. Why not plant more of both this spring?

MacDonald Crimson The New Red Rhubarb

This new variety is the best of all. Yields heavily from spring right through to late summer because it never goes to seed. Will last for years. Produces unusually large attractive crimson stalks and the good thing is that they are very tender and juicy (skin and all); not tough or stringy as most large stalks are. If everyone knew this grand new red rhubarb no other kind would be planted. It is so much better in every way—large size, rich red color, greater production, and best of all a deliciously sweet flavor. Superior for canning—each piece pink, tender, not stringy, the syrup rich in color, and all a wonderfully mild flavor.

Ours are all strong division roots ready to produce quickly. Planted this spring they will make fine large stalks for your use this summer and fall and of course again in the usual early spring season. Excellent for winter forcing.

PRICES—Each 59c; 3 for \$1.65; 6 for \$2.95; 12 for \$5.90; 25 for \$9.95.

MYATT'S VICTORIA Early. Rhubarb is in greater demand everywhere. Victoria is the preferred market variety and is generally planted. Good for winter forcing, too, when prices are highest. Attractive pink stalk, delicious, mild flavor. This pink stalk, tender variety is preferred and brings best prices. Our stock is carefully grown from guaranteed tested seed. Victoria is ideal for pies and sauce. Transplants easily; produces abundantly.

1-yr., 1/2 to 1 Inch—Each 12c; 6 for 55c; 12 for \$1.00; 25 for \$1.60; 50 for \$2.95; 100 for \$4.95.

1-yr., 1 Inch and up—Each 18c; 6 for 90c; 12 for \$1.65; 25 for \$2.75; 50 for \$4.90; 100 for \$8.95.

VICTORIA CLUMPS

Large 2-year-olds, ready to produce this summer. Just the thing to get Rhubarb started quickly in your garden.

PRICES—Each 39c; 3 for \$1.10; 6 for \$1.85; 12 for \$3.45.

HORSERADISH

Big Crown Plants that Produce Quickly

How many times have you wanted Horseradish roots or leaves for your canning and kitchen use! It is easy to grow and a few of these roots multiply rapidly and will make all you need. Plant in any out-of-the-way corner. A fresh, home grown supply is much better than what you buy. The cost is little and once started Horseradish lasts for years.

Prices: Big Crowns—3 for 43c; 6 for 75c; 12 for \$1.25; 25 for \$2.15.

New Canada Red RHUBARB

This is a new red rhubarb that is in top place for appetizing red color and deliciously mild flavor. It is seedless and therefore everbearing. A vigorous, hardy grower and its long, tender stalks are rich red, right through. Of milder flavor than most kinds; requires less sugar. Many consider it the best rhubarb yet introduced. Plant 2 or 3 roots and enjoy it. Grows easily in any good garden soil.

Price: Each 75c; 3 for \$2.00; 6 for \$3.75; 12 for \$7.25; 25 for \$12.50.

"Your Asparagus Bed"

Garden Fresh Asparagus is a real treat. Don't miss it.

& ASPARAGUS *For Profit*

REGULAR CROPS YEAR AFTER YEAR

Asparagus is easy to grow and you can make big profits from a small space. 50 to 150 plants will supply this delicious food for the family. A bed lasts for 10 to 15 years, and you can depend on heavy regular crops from our roots. It is most important that you get strong, healthy true-to-name plants. We grow them by the thousands from guaranteed tested seed on special soil to give you the best planting stock.

Mary Washington

Mary Washington

Developed and recommended by U. S. Dept. of Agriculture. Heavy yielding, pedigreed strain immune to rust; grows rapidly and produces uniformly tender shoots of excellent table quality.

Now that canning companies have found how to can asparagus and retain all its delicious flavor and healthful food qualities they are contracting for greater supplies every year. At the same time there is a rapidly increasing demand from grocery stores and commission merchants for fresh asparagus during the summer season.

\$4,000.00 from 4 acres—That is what one local grower made from his field of asparagus, and shows what can be done with the present day asparagus market. 5,000 roots plant an acre. Here the cutting season begins in May, before any other cash crop.

There is a steady demand with average prices of 7 to 10 cents per pound. You can make money growing asparagus now!

New! Paradise Asparagus

Bears a Big Crop in Only One Year

That tells the story of this remarkable new Asparagus. It comes into full production quickly—no need to wait 2 or 3 years to begin cutting. PARADISE was bred and developed to do just that.

Paradise Makes Profits Quicker

The rapidly increasing demand for both its plants and stalks as Paradise becomes more widely grown, shows that here is a popular asparagus variety. It is rust resistant and produces great, wonderful appearing stalks of delicious flavor. Paradise is a most excellent asparagus for home use and profitable market sale. We are glad to offer this new, early producing, deliciously flavored variety at these low prices:

Black Raspberries *Always Make* **MONEY**

Black Raspberries have regularly been better than average returns every year. Fruit canneries always contract for a good part of the crop and this insures better prices all around. These are proven, profitable varieties. Michigan grown, double inspected raspberry plants are recognized throughout the country as the best. Our soil is especially adapted to produce sturdy, well rooted quick growing plants.

Cumberland

Cumberland Leading Commercial Variety

**Low Prices For
Dependable Certified Plants**

**Bears Heavily—Picks
Easily—Makes Money**

Clear money above all expense is what you want and you can depend on our heavy producing, vigorous plants for it. Cumberland is still the leading berry in the plantings of commercial fruit growers everywhere. Government Experiment stations have found none that promise to be a better money-maker.

If you grow Black Raspberries at all you need this great mid-season berry for a complete planting; it is hardy, healthy and produces its big paying crops of fine berries in every fruit growing section. Plants vigorous and very productive; thrive everywhere. Berries large, firm, jet black with a delicious flavor. Wonderful long distance shippers—attractive appearance—always command good prices. Guaranteed to please you and make big money.

THE NEW! MORRISON

Black Raspberry

Bigger, More Profitable—Late Berry

Here is a really better Black raspberry for both home and market use. Morrison has now been widely tested from Pennsylvania to Michigan, and has proven head and shoulders above other varieties in most every way. Commercial growers say: "Largest blackcap I have seen." "Practically disease free." "Larger and firmer than Cumberland. Does not crumble." "Holds its size to the last of the picking season." "For two years it has brought more than other varieties on the Pittsburgh market."

A county agent says: "The Morrison is somewhat the most attractive berry I have seen in several states. With us the berry ripens slightly later than Cumberland, is considerably larger, very dark and glossy and sells at a premium at all times."

The big bushes are exceptionally vigorous, hardy growers; long lived (some producing well after 12 years), and are practically disease free.

Morrison berries are high flavor, firm, juicy, not so seedy, and the size averages almost an inch across. They hold up longer in grocery and market, outyield other varieties and **MAKE MORE MONEY FOR THE GROWER!**

To sum up, Morrison is:

1. $\frac{1}{3}$ larger than any other blackcap.
2. As heavy a yielder as Cumberland.
3. Practically disease free.
4. Does not crumble—holds its size all season.
5. Makes more money because its large size and glossy color make so much better appearance.

SPECIAL INTRODUCTORY OFFER

6 New Yellow Black Raspberry, 1 yr.
6 New Morrison Blackcap, 1 yr.

\$1.75

Early NEW LOGAN

Most Widely Planted
Early Blackcap

This is the early variety growers have been looking for. It has all the good points other early berries have lacked. Its berries are good size, do not crumble (unusually firm), do not dry up, hold a glossy black color and have a deliciously sweet flavor. Logan is a fine home garden berry. Bears heavily, maturing most of its crop before Cumberland begins, and so gets the best of the early high prices. Many Michigan canning companies are contracting Logan because they like its rich flavor and uniform berries.

Logan

Ripens 6 to 9 Days Before
Cumberland

Logan is recommended Michigan and Ohio Experiment Stations. It has proven to be an entirely satisfactory commercial berry in the great fruit sections of these states. It is remarkably free from and resistant to disease; a strong grower, throwing out plenty of fruit canes.

We recommend Logan for its earliness, its excellent quality, its firmness and color for market. Plant Logan and you will be well repaid. Our price is low for this fine Early Raspberry.

Sodus

SODUS

THE BEST PURPLE RASPBERRY

A Coming Money-maker
Ripens Early

This New Early Purplecap
Promises Great Profits

If you have not eaten purple raspberries both fresh and canned, you have a delightful experience coming, for these berries have a color, aroma and flavor that call forth that "more" taste. They are something deliciously different.

This newcomer from the Expt. Station will be a money-maker because of its great size, attractive color, extra firmness and exceptionally heavy crops. Giant, bright purple berries, do not crumble, borne in great clusters on every branch. Flavor good—a blending of red and black raspberry.

SODUS is a rapid grower with great strong canes to carry its big load of fine fruit. So far it has shown almost complete freedom from mosaic; plant safely anywhere. Had no winter damage when others were frozen. Stands dry weather unusually well.

Sodus Has Size, Color and Quality

Sodus is the best of all purple sorts generally planted today; has proved both resistant to drought and hardy in winter cold. A good sized, fine flavored purple raspberry with attractive appearance will make money. SODUS is such a berry and deserves extensive planting for commercial use. At home, its tart flavor and great size are what everyone wants for canning and pies. Plant SODUS for a Really Good Purple Cap.

HERE IS SOMETHING SPECIAL FOR YOUR FRUIT GARDEN

Giant Size Black Raspberry Plants

Ready To Bear This Summer!

Big, heavy rooted, well branched, well grown bushes—larger and better than many transplants we have seen in a long time. They were ready to produce berries for us this summer and will do the same for you. All Cumberland—the leading Blackcap. All 2 year old bushes.

We have only a limited supply of Special Size plants, so it is "first come, first served."

Ready-to-Bear

NOW! Mammoth Thornless BOYSENBERRY

Ripens 10 Days to 2 Weeks Earlier

Think of the pleasure of picking a berry with the great size, fine appearance and deliciously different flavor of regular thorny Boysenberries, that is entirely free from thorns, too. That is what you have with the new Thornless strain. The only difference we can see is that the berries are slightly smaller than the regular Boysenberry. Thornless brings you ripe fruit about two weeks earlier, too. Easy to grow and quick to bear a big crop, with beautiful berries decidedly different in flavor—you just cannot beat these "pleasant-to-pick" Thornless Boysenberries!

(Thorny)

BOYSENBERRY

\$800 to \$1,500 Income Per Acre

55 of the largest berries fill a quart basket. Average size, 1 inch diameter, 1½ to 2 inches long—largest bush or vine berry known. Bushes are hardy (has stood 19 degrees below zero). Its exceptionally rapid growth, heavy crops, immense size and deliciously different flavor will amaze you. Grows like a dewberry and is as easy to raise. Ripens with them and fruits over a longer season.

Fine for Jams, Jellies, Pies

Boysenberry is a cross of Blackberry, Raspberry and Loganberry. Berries dark reddish-purple, wine-colored, juicy with a high flavor not found in other bush fruit. Unbeaten for jellies, jams, pies. A dozen plants give you all you can use and some to sell.

Enormous Spicy Purple Berries

Boysenberry is a real money-maker because of its outstanding features of immense size, exceptional productiveness, unusual flavor and fine appearance—it is impossible to realize how far superior in all of these qualities it is until you have seen it. Market growers are greatly increasing their Boysenberry plantings because these larger, better berries are proving big money-makers for them.

Bearing Age Bushes—These big, better-rooted, older bushes will give you some berries this Summer and a good picking the next Summer. We have them in both Standard and Thornless Boysenberry. See new low prices.

RED RASPBERRIES

Latham

Most Profitable
Late Red

Latham has definitely proved to be the best red raspberry money-maker in every fruit section of the country. Each year for the past five years we sold more Latham plants than all other red varieties put together.

For general planting in all sections, Latham is the best because this hardy, vigorous grower can be depended upon

Latham

for big annual crops of finest looking berries. Fruit buyers on every market pay a premium for Latham's bright color, firmness and long keeping quality. These things and its most delicious flavor make it equally desirable for home gardens.

Latham Is Still the Best Fruit
Everywhere for Profit

FOR CANNING—Jams and Jellies—Unusually rich color that does not fade, and what a wonderfully delicious, true, fresh raspberry flavor! The ideal berry for canning uses.

GOVERNMENT EXPERIMENT STATIONS—Recent reports from leading fruit states say that Latham is the best and most profitable berry for its season and highly recommend it for planting.

Guaranteed, True-to-name, Disease-free, Genuine LATHAM. You cannot afford to plant any but the best.

Hardy, Productive, Dependable

Hardy and very productive—far out-yielding older kinds, it ripens from mid-season to late. We wish we could convince you what a truly fine berry LATHAM is in every way. If you have grown it you already know. Berries are all above average size, bright red, and make the most attractive appearance of any red variety; the flavor is of the finest. You will make no mistake in planting all you can.

Taylor GIANT-SIZE BETTER LATE BERRY

Berries larger than any other, except Newburgh, uniform and pointed in shape, very firm (will not crumble when picking) bright snappy red color—all qualities that make TAYLOR an ideal shipper, arriving in best appearance to bring highest prices. Its large size holds up well over a very long season. Its deliciously sweet flavor and thick juicy flesh make it just right for eating, canning and preserving at home.

An unusually upright strong-caned grower, makes picking easy and keeps the fruit well off the ground. Exceptionally hardy under severe weather conditions. Crops unusually heavy. Originated by New York Experiment Station; one of its best. **TAYLOR is really fine.**

THE NEW **SUNRISE**

**Extra Early—Extra Quality
Extra Hardy**

SUNRISE comes to you fully tested and proven as a better flavored, better quality berry for home use and an earlier ripening, hardier growing, more profitable variety for market. Here is its story—judge for yourself.

1. **Originated by U. S. Dept. of Agri.** in 1923; carefully tested by them since and they say—
“Of most importance from the standpoint of the practical grower perhaps, are the **hardiness** and **resistance** to disease of the plants, the **earliness** and **larger size of berry** as compared with St. Regis and the **better texture and quality** as compared with Latham.”
2. **Earliness**—N. J. Expt. Station says: “The special value of SUNRISE is its earliness. This year it was ready for first picking June 8, Chief on June 19, Latham, June 23.”
3. **Long Picking Season**—N. J. Expt. Station says: “In most cases SUNRISE will continue to produce some fruit even after Latham is practically finished.”
4. **Hardiness**—U. S. D. A. says: “SUNRISE has shown resistance to low temperatures in mid winter at New Jersey with practically no injury, whereas Latham and some other varieties were severely injured.” It has been more resistant to anthracnose, leaf spot and spur blight than Latham.
5. **Flavor and Quality**—U. S. D. A. says: “More attractive than Latham—color is bright, turns dark red on ripening, berries pick easily. They are firm, fine textured, juicy, non-crumbly, mild in flavor, better quality.”

Sunrise

From these statements you can see what a superior variety in every way SUNRISE is. Don't wait longer to make a planting of this new U. S. D. A. berry.

Another Fine New Red **Washington Red Raspberry**

Another good new red raspberry has long been needed to replace older kinds and in many respects Washington gives good promise. The berries are of very good quality and flavor—much better than Latham—large and attractive in appearance. Well suited to canning, preserving and quick freezing. It is an abundant bearer.

Washington was introduced by the Washington State Expt. Station seven years ago and is recommended as a valuable commercial variety in that section and the central west. In the Michigan section it should perhaps be further tried out for commercial value.

But for the garden and all home uses its heavy bearing, large size and most excellent flavor make it most desirable. You will like it.

This new variety has not been generally available before and we are fortunate in having a reasonably good supply of genuine Washington for you. Order early.

Indian Summer

INDIAN SUMMER

New Everbearing Red Raspberry

Here is a distinctly new type of everbearer, unlike any older kind. "Marvelous" justly describes Indian Summer. The quantity, size and quality of the berries it produces in September, October and November are truly marvelous because they are so far superior to any other everbearer. With such a berry you can make worth-while profits from the high prices always paid for off-season fruit. You get a good early crop in the regular season, too.

Berries are uniform, rich red, thimble-shaped, large and juicy; flavor a true, tart, delicious raspberry. A thrifty grower and heavy producer. You have never seen any fall berries as good in every way as INDIAN SUMMER. Be sure to plant this spring.

ST. REGIS Everbearing

This old and well known everbearer is planted by many growers. Bushes are good size, upright, vigorous and remarkably free from disease. Produces a full spring crop as well.

Chief—Early Red Raspberry

Chief is replacing King and other early kinds because it is better. Early Chief is paying Michigan growers well. Berries are of good size and color, firm, and reach the market in good shape for early-season high prices. Perfectly hardy, a vigorous grower and heavy producer—Chief will make good anywhere.

Early Red Raspberry for Home or Market

Chief plants received from us are guaranteed true-to-name and No. 1 in every respect. Early red raspberries always pay well and with Chief you can depend on some extra profits. We think a lot of Chief and we recommend it to you as a money-making early red raspberry.

ELDORADO BLACKBERRY

Satisfactory Everywhere—Always Dependable

Every good quality possessed by other blackberries is emphasized in ELDORADO. Its exclusive advantages are: Absolute freedom from Orange Rust; a very heavy bearer with great, jet black berries.

Plants are so strong and vigorous they survive severest Northern Winter without mulching; Eldorado will produce paying crops in climates and locations where less hardy kinds will be frozen. A splendid shipper, because the berries are so firm. Plant Eldorado generously. They are making big money for other growers and will do the same for you.

Dollar Making BLACKBERRIES

Did you ever see finer looking berries than those shown here? Blackberries are more popular than ever, but you must grow the right varieties and get the best quality of plants to secure the maximum profits. Alfred and Eldorado are the best grown today and will produce the crops you expect. Blackberries have paid mighty well and now is a good time to plant more.

Early Alfred

Alfred is best for every use. It has been grown by leading fruit growers and proven the **Best Early Blackberry** variety. We unreservedly recommend it to our customers as thoroughly satisfactory and the equal of any blackberry early or late when it comes to producing big crops and paying worth-while profits. Think of a bush full of tremendously big blackberries from 1½ to 1¾ inches long, practically free from seeds, coreless and with a thick pulp fairly bursting with delicious juice. That's Alfred!

Paying Crops of Big, Juicy, Delicious Berries

Alfred ripens a full 10 days ahead of Eldorado and continues all through the Eldorado season. Alfred berries are bigger, brighter colored, of better flavor and bring better prices right along. Once you grow Alfred you won't be satisfied with any other berry—fine, large berries that carry well to market.

The plant is such a vigorous, healthy grower that it produces a good crop the first year after planting. Withstands cold that kills less hardy varieties.

Alfred will please you—whether raised for pleasure or profit. It is another of our splendid varieties—selected for its worth. Alfred plants are still scarce, but we are making a price within the reach of all, because everyone should have this wonderfully fine berry.

ICEBERG White Blackberry

This is a really worthwhile blackberry. When fully ripe the berries are creamy white and of good sweet flavor. Easy to grow as any blackberry and produces plenty of its novel white berries. Put a few plants in the garden and surprise the neighbors.

JONATHAN—LATE FALL. Sold in every store. Glossy red; fine grained, juicy flesh, excellent flavor. Medium to large size. Unusual keeper (to February) makes it a most profitable commercial apple. Quick to bear and easily grown in practically every fruit section. Jonathan is first choice in many homes.

RED ASTRACHAN—BEST EARLY SUMMER. Well known old sort. Large round, crimson apple; rich juicy, excellent eating and cooking early apple, vigorous and productive tree.

STAYMAN'S WINESAP—LATE WINTER. Best Winesap. Extra large, bright red, crisp, juicy with a wonderful zesty flavor. Stayman easily leads all other Winesaps. Heavy bearers and big money-makers everywhere.

WEALTHY—FALL. Heavy yearly bearer. Hardy, long lived. Attractive, brilliant, red striped; superior quality, wine-like flavor. An all-round apple for eating, cooking, cider and market.

Plant More APPLES

And Have Plenty of Fruit for a Lifetime

Ours are guaranteed true-to-name, well rooted, quick-growing trees. These are high-quality, proven value varieties, best adapted to eastern, middle-western and northern soils and climates. There is real pleasure and a big saving in having two or three trees of each fruit right in your garden. As a commercial proposition, tree fruit is always in profitable demand.

BALDWIN—WINTER. This widely known variety averages about medium size, rich dark red, juicy, fine flavor. Good for market and home use. One of the first two or three varieties in the great Michigan and New York apple sections.

CORTLAND—WINTER. Many customers have asked us for this newer apple and we are glad to supply them. Cortland is an excellent, early bearing, long keeping McIntosh type. Large fruit streaked with bright red and yellow. One of the best commercial sorts.

DELICIOUS—(DOUBLE RED). Winter. Known world over. Brilliant dark red, shading to yellow at blossom end. Large to very large; white tender juicy flesh. Wonderfully rich sub-acid flavor—truly delicious. Ships without bruising, makes a wonderful appearance, commanding top prices. Comes into bearing early.

YELLOW DELICIOUS—LATE FALL. This beautiful new apple has the distinctive shape and big size of Red Delicious with an added deliciousness and mildness of flavor that is unsurpassed by any apple. Flesh solid, crisp and full of juice; its rich golden-yellow, firm smooth skin gives it a luscious appearance. This new, highest quality apple is always in demand and brings top prices. Plant it now.

GRIMES GOLDEN—WINTER. Favorite mild eating apple. Excellent keeper, uniform shape, typical dull gold color. Hardy productive tree. Carefully selected and grafted trees insure satisfaction with this fine apple.

McINTOSH—WINTER. A MONEY-MAKER TODAY. Juicy snow apple—white, crisp flesh; beautiful solid crimson color. Excellent quality—winelike, true apple flavor. Good annual bearer. Rapidly increasing popularity among consumers everywhere makes good prices certain. One of the most profitable apples.

NORTHERN SPY—WINTER. The old, well-known favorite. Delicious juicy flavor; excellent for eating and cooking. Brilliant streaked red color. Always in demand; good prices; long keeper.

YELLOW TRANSPARENT—EARLY FALL. Has proven both popular and profitable. Fruit large yellow with crisp sub-acid flavor. Heavy annual bearer; well known everywhere.

Three New **APPLES**

Outstanding Quality

DOLGO CRAB—Striking, Dazzling Red, New Crabapple. Unbelievable heavy bearer; free from blight. Jells quickly even when fully ripe. Good to eat fresh. Beautiful hardy trees, thrives everywhere. Called the "Perfect Crab." Dolgo is replacing older varieties. Its lustrous green leaves and mass of pink blossoms make it ideal for lawn planting.

PRICE: 9/16 in., Each, \$1.25; 3 for \$3.55; 10 for \$10.95

ANOKA—Have Apples the Second Year. Bears on one year old growth and bears annually. Ripens in August; very heavy bearer; fruit red stripes over yellow; fine cooking quality, short keeper. Originated in South Dakota, perfectly hardy. Does best in central and northern sections.

PRICE: 9/16 in., Each, \$1.25; 3 for \$3.55; 10 for \$10.95.

RED JUNE—Ripens in July

Extra early summer apple. Color deep red over yellow, fine flavored, tender and juicy. This medium size, round red apple is one of the best summer kinds. Tree is moderate size and generally reliable bearer of good crops. Firm, crisp flesh keeps well to early winter. Profitable summer market variety.

PRICE: 9/16 in., Each \$1.10; 3 for \$3.10; 10 for \$9.95.

Dolgo Crab Apples

NOW! Dwarf Apple Trees

At Reasonable Prices

Dwarf apple trees are highly prized for the small garden where space is limited. They make plenty of fruit possible as these sturdy little trees bear a big crop way out of proportion to their size.

Full Size Fruit from Dwarf Trees

Quintuplet Apple

5 Kinds of Apples on One Tree!

This one tree gives you delicious apples from early season to late winter. Five fine varieties are budded on one tree, selected to cover the apple season from late summer through fall and winter varieties.

Just right for your garden if you don't have room for five trees. Plant one or two of these unusual trees and have five varieties of apples.

PRICES: 2 yr., 9/16 to 11/16 in., 4 ft. and up, Each, \$2.50; 2 for \$4.75; 3 for \$6.60.

Famous PEACHES

PEACH TREE PRICES

Experienced growers recommend 9/16 in.; 4 to 5 foot trees as best size to plant.

(All Varieties Except Hardee and Redhaven.)

1 yr. 9/16 in., 4 to 5 ft., Each \$1.00;
3 for \$2.90; 10 for \$9.25; 25 for \$21.75; 100 for \$82.50.

HALE HAVEN — MID-AUGUST. Wonderful new peach with great size and beautiful color of J. H. Hale and earliness of South Haven. A better peach of richest flavor; yellow flesh firm and juicy. Better shipper than South Haven; always freestone; bears every year. Hale Haven is one of the best and its sale shows a far greater increase than any other kind. Always brings more money. Ripens 10 to 15 days before Elberta and is second only to that grand variety in popularity and profits.

ELBERTA — SEPTEMBER 1, PLANTED BY THOUSANDS. Standard commercial peach. Plant Elberta and be sure of a crop. Large to extra large. Freestone. Golden yellow flesh, red at the pit, firm, juicy. Has no equal as a prolific bearer and shipper. Best known peach.

CHAMPION — EARLY AUGUST. BEST WHITE FREESTONE. Many prefer this white peach. Full of rich juice, finest flavor. Large red cheek. Heavy bearer; very hardy.

Red
Haven

Hale
Haven

SOUTH HAVEN — AUGUST, THE PROFITABLE EARLY PEACH. Originated in the famous Michigan Peach Belt, South Haven, has proven one of the best varieties in every peach growing section. Experiment Stations recommend it when an earlier peach than Elberta is desired. Withstands severe winter cold. As fine a peach as the standard Elberta, firm, highly colored—and ripens 12 to 18 days earlier.

J. H. HALE — LATE AUGUST. FIRST IN SIZE, COLOR, QUALITY. Yellow, thick skin, colors to a rosy tint. Deep yellow, fine grained very firm flesh—delicious flavor. A beautiful peach, fresh or canned. In size, color and quality, no peach compares with Hale. Always brings \$1.00 to \$1.50 more per bushel.

NEW-REDHAVEN — 30 DAYS EARLIER THAN ELBERTA. With the perfection of Redhaven in 1940 (a cross of Hale Haven and Kalhaven), Mr. Stanley Johnston of South Haven, Mich., Expt. Station has completed a remarkable series of new peaches.—Kalhaven (1936) ripening about 4 days before Elberta, Hale Haven (1932) about 17 days before, and now Redhaven (1940) about 30 days earlier. All are outstanding in commercial shipping qualities—good size, color, firmness, dependable crops. All are equally excellent for home use because of size, fine flavor, yellow flesh, freestone pit.

Redhaven, the reddest of all three, usually completely covered with brilliant red. Medium size, firm, fine grained, sweet fruit. Trees are strong, healthy growers; very heavy producers—thinning often needed. Fruit buds hardier than Elberta, nearly as hardy as South Haven. You should have Redhaven for a fine extra early peach.

RED HAVEN PRICES

9/16 in., 4 to 5 ft., Each \$1.20; 3 for \$3.30;
10 for \$9.95; 25 for \$23.60.

Pears THE WORLD'S MOST DELICATELY FLAVORED FRUIT

BARTLETT—SUMMER. Known for quality. One of the best known and popular varieties for both commercial and home orchard planting. Golden color with red streak, mellow and indescribably delicious both fresh and canned. Heavy bearer.

KIEFFER—FALL. Best pear for large commercial planting, because of its sure crop, heavy yield and excellent shipping qualities. Kieffer has been proven unexcelled for commercial canning. A local cannery used over 200,000 bushels in one season.

DOUGLAS—Bears In 2 Years. Why wait 5 or 6 years for a crop of pears when the NEW DOUGLAS very often bears the second year? Young trees have been known to bear in the nursery row. Heavy bearer of good quality fruit. Very hardy, producing fruit from a second set of blossoms, when the first was frozen. Very blight resistant. Juicy, sweet, delicious.

SECKEL—The Old Favorite "Sugar Pear"—EARLY FALL. A medium size pear that ripens late in September. Extremely fine quality and flavor. Always in market demand and equally valuable for home use.

Bartlett Pear

New HARDEE PEACH

U. S. Plant Patent No. 120

Produces Full Crop After 18 Degrees Below Zero

THE HARDIEST PEACH

This record is reported by Ohio Experiment Station. It means sure crops when even Elberta fails, and that means soaring peach prices. HARDEE is a drought-resisting, steady bearing, sure-cropping tree. Fruit is a delicious, high quality, yellow free-stone. Ripens with Elberta; is more elongated, rich yellow with red cheek. Shipping, keeping and home use qualities are excellent. Successful peach crops can now be grown in many sections that were too cold before. Plant HARDEE, the cold resisting peach, and safeguard your future crops. **Order Yours At Once.**

PRICES

9/16 trees, 4 to 5 ft., Each \$1.20; 3 for \$3.30; 10 for \$9.95; 25 for \$23.50.

New Hardee Peach

Montmorency
Cherry

Popular and Reliable Cherries

SOUR CHERRIES

EARLY RICHMOND—One of the most popular sour cherries, unexcelled for cooking. Dark red, tart, and juicy. Hardy trees uninjured by cold. Big crops.

MONTMORENCY—Ripens late in June and is best sour cherry for market. Makes delicious pies; fine for canning. Fruit larger than Richmond; bright red, acid flavor.

Grow Montmorency for the Canning
Factory Market

SWEET CHERRIES

BLACK TARTARIAN—Extensively planted and prolific. Regular bearer of big, black juicy, sweet fruit. Hardy, vigorous. Best and most profitable black sweet cherry—for market and home.

NAPOLEON-YELLOW—Old-time favorite, succeeds practically everywhere. Heavy bearer of large light yellow heart-shaped fruit.

SCHMIDT'S BIGARREAU—Newer sort. Unusually hardy. One of the best late sorts, especially in Northern sections. Largest size, firm fruit; deep red to mahogany. Brings best prices.

WINDSOR—Liver colored large cherry, wonderful flavor. Originated at Windsor, Canada. Hardy prolific tree. Valuable for market or family use.

HARDY PLUMS

BURBANK—DELICIOUS TABLE Plum. Hardy Japanese variety free from black knot. Deep red color, unusually delicious flavor. Keeps three weeks after ripening. Ripens August 15 to Sept. 1.

ITALIAN PRUNE—BEST for Canning and Preserving. Medium size dark purple plum. Firm, sweet, the favorite everywhere for canning. Tree easy to grow, remarkably free from disease, very productive. Good keeper, excellent shipper. Ripens in September.

STANLEY PRUNE—Recommended by New York Expt. Station as the best new early plum—early August, 10 days before German Prune. Stanley is the finest prune type plum; fruit largest size, dark bluish purple, free-stone, fine grained, tender, juicy and sweet. Firm and does not crack. Excellent quality for cooking or eating. Produces heavy full crop every year; often bears in 3 years.

YELLOW EGG—BEST YELLOW PLUM. Extra Large Fruit. Clear yellow egg shaped. Sugar-sweet, rich, juicy and melting. Fine for table or canning use. Hardy productive tree. Ripens August.

GREEN GAGE—THIS ROUND, GREENISH-YELLOW plum has about the sweetest flavor of all. Every housewife wants Green Gage for canning and preserving. Medium size, full of juice, unusually heavy bearer. Always sells well. Late September.

QUINCE

ORANGE—Best of All Quince. Regular annual bearer of fine, large, rich yellow, aromatic fruit. Makes delicious jam and quince "honey". Trees hardy in most all sections. Begin bearing very young and produce large crops.

Price: 2 yr. 7/16 in., 3-4 ft., Each \$1.65;
2 for \$3.15.

Hansen Bush Cherry

(See Page 28)

Fruit as delicious as sweet cherries; makes excellent Jell and Jam.

APRICOTS

Apricots are quite hardy—about like standard plums. Two or more trees should be planted to provide full pollination.

EARLY GOLDEN—One of the earliest, ripens in July. Fine, apricot-flavored, clear lemon-yellow, medium size fruit. Bears abundantly.

MOORPARK—One of the largest kinds. Ripens August. Golden-yellow, red-cheeked fruit. Freestone, sweet and juicy with that true apricot flavor. Tree is beautifully shaped and when in full bloom is a picture of spring. Very rapid grower and heavy bearer.

PRICES

1-yr., 7/16 in., 3 to 4 ft., each \$1.55; 2 for \$2.95; 3 for \$4.10; 6 for \$7.75.

Cushion Mums

Hundreds of Beautiful Blooms from
August to Frost

These marvelous new type chrysanthemums begin to bloom in August and continue their lovely, brilliant and many colored flowers until late fall and heavy frosts. Literally hundreds of blooms on one plant—a mass of color 2 feet high and 2 to 3 feet across. All this beautiful flower growth comes this first summer from the plants you receive and put out this spring. A hardy perennial that will increase in size and beauty each year. Our plants are all grown from carefully selected, heavy flowering, clear colored, established plants. Plant about 18 to 24 inches apart in any good soil. Ideal for borders, in clumps, or a spot of color wherever you want it.

New Mum "SANTA CLAUS"

A striking new introduction. Covered with brilliant, glowing, brick-red flowers from mid-September onward. Hundreds to a plant. Large, two inch, double blooms, excellent for cutting. Unusually bushy, sturdy growing plants. You will be more than pleased with this striking new beauty.

Strong potted plants, with soil on roots, ready to plant and grow quickly: 70c each; 2 for \$1.25.

Prize Named Varieties

Excellent, profusely blooming, selected varieties with clear and brilliant colors.

Pink Major—new, improved, true pink cushion.

September Bronze—golden bronze, pompon.

Pygmy Gold—Round, lemon-yellow pompon.

Snowdrift—white, older blooms pink tinted.

Strong potted plants, easy to plant and quick to grow:

45c each

All 4 for \$1.39

YOUR CHOICE
Any Five Shrubs
Listed Below

FLOWERING ALMOND—Upright grower, 3 to 4 ft. Long branches are thickly studded with small double, delicate pink flowers over their full length, before the leaves appear. Blooms in April.

PRICE: Each, 58c; 3 for \$1.60; 6 for \$2.95

FORSYTHIA INTERMEDIA—Golden Bell. Earliest shrub to bloom. Bright yellow flowers seem the spirit of Spring, opening before the leaves appear. Grows to 6 to 8 ft. but may be pruned as desired. Branches slightly drooping. Dark green leaves.

PRICE: Each, 58c; 3 for \$1.60; 6 for \$2.95

HYDRANGEA P. G.—This showy shrub is perfectly hardy. Large clusters of pure white blossoms, later turning soft pink, from August to late Fall. Superb either singly or in groups; often used as a hedge.

PRICE: Each, 58c; 3 for \$1.60; 6 for \$2.95

SCARLET FLOWERING QUINCE—Scarlet flowers in April and May. Grows 6 to 8 ft. One of the most attractive spring blooming shrubs; blossoms always large, flowering ingreat masses just as the leaves are coming out. Foliage a dark glossy green.

PRICE: Each 48c; 3 for \$1.30; 6 for \$2.35

MOCK ORANGE VIRGINALIS—A magnificent new variety. Medium height, compact bush. The flowers (single, semi-double and fully double) are the largest and most sweetly fragrant of any variety, with longest early blooming season. Gaining popularity in every state.

PRICE: Each, 58c; 3 for \$1.60; 6 for \$2.95

SPIREA VAN HOUTTEI—Bridal Wreath. One of the most beautiful and popular of flowering shrubs. In May and June the slender branches droop and form a veritable fountain of snowy white bloom. Thrives anywhere, in shade or sun, wet or dry and grows from 6 to 8 ft. high in good ground. Makes a beautiful ornamental hedge.

PRICE: Each, 23c; 3 for 65c; 6 for \$1.15; 12 for \$1.95; 25 for \$3.50.

WEIGELA EVA RATHKE—Crimson. 3½-4 ft. June flowering. Of smaller growth than the other Weigelas; decidedly spreading. A profusion of flowers brilliant crimson with white throats is its outstanding characteristic. It is especially showy.

PRICE: Each, 58c; 3 for \$1.60; 6 for \$2.95

HANSEN BUSH CHERRY

The fruit of this fine ornamental shrub is good to eat. Fruits are large as the average

cherry; have a new, delicious flavor; excellent fresh and for jam and jell. White flowers in spring, red and gold foliage in autumn. Hardy everywhere, grows to about 4 to 5 ft.; bears immense crops annually.

PRICE: 2 yr. 18-24 inch — Each, 45c; 3 for \$1.25; 6 for \$2.25.

3 yr., Bearing Size—Each, 95c; 3 for \$2.65; 6 for \$4.50.

GROW GRAPES

**A Lifetime of
Crops and Profits**

The New SENECA

Here is the newest of the California type hardy grapes—golden yellow, oval fruit with the familiar firm, meaty, juicy, deliciously sweet flavor—and—the skin can be eaten with the berry! Long, compact, medium size bunches. Vine perfectly hardy wherever other northern grapes grow. Ripens here in early September. Why not get one or two vines this spring—the flavor is delicious.

Fredonia

NEW FREDONIA

A Far Better Extra Early Black

Originated and tested by N. Y. Expt. Station. FREDONIA is the best extra early sort, ripens 10 days before Moore's Early and 3 weeks ahead of Concord. Berries are very large, hang well to the bunch and are firm, juicy and of fine flavor. Skin is thick and tough to make a good shipper. Vine is vigorous and productive with medium size very compact bunches.

Early grapes make the most money and FREDONIA is a fine quality extra early grape far ahead of any other early kind now on the market. The bunches keep their vine-fresh firmness and fine appearance for days after picking. Begin your planting of this new kind this spring.

NEW PORTLAND (White)

Fine Extra Early Grape

Similar to Niagara in its large size bunch and full oval berries, Portland ripens three weeks earlier. Production is heavy, young vines bear early and bear good crops every year. Berries are of good size, fine and sweet in flavor. Vines entirely hardy. Introduced by N. Y. Expt. Station and is proving an excellent profitable grape because it ripens so early and its quality is so good.

CONCORD The Universal Black Grape

Always in good demand—the standard by which all other black grapes are judged. No vineyard or arbor is complete without Concord. Best for market, eating and home use.

It is the main crop for every grower everywhere and produces big crops on any soil every year. After the first expense the cost of up-keep is but little. It is a profitable permanent investment.

Our Concord vines are well rooted, especially adapted to the central west, and guaranteed to reach you in perfect growing condition.

New CACO—(Red)

Big, Sweet, Juicy, Productive

Caco is A-1 in every respect. Hardy, quick bearing, produces every year; fruit beautiful, unusually large size, clear amber color and best of all has a flavor of such sweetness it is a superior table grape.

Always in demand at grape markets with extra prices. Widely endorsed by experiment stations. Vines just as easy to grow as any other. There is always room for a few vines somewhere. Don't be without Caco.

NIAGARA—(White)

Best White Grape for Every Purpose

The best known and most popular of all white grapes, ranks with Concord in heavy bearing, size and quality.

Medium compact, large bunches; berries mostly round, of greenish-white color; very juicy and of excellent flavor, skin is thin but tough and does not crack, making it a fine long-distance shipper. Hardy, vigorous grower.

DELAWARE—(Red)

Long called the standard of excellence of all grapes as a table delicacy. Bunch small, compact; berries small with thin skin and of unusually sweet flavor. Ripens with Concord. Hardy.

It is impossible to tell you how really delicious these little red grapes are. Don't fail to plant a few vines this spring.

**THE
NEW**

Giant Blueberries

Ornamental as Well as Enormously Productive

These genuine cultivated Blueberries have been originated and improved by government experiment to produce big yields of giant size, deliciously sweet berries. Berries 3 to 4 times the size of wild kinds. Now every garden can have enough of this healthful fruit for canning and pies—2 to 6 bushes. Two or three varieties to lengthen the season are advised. Ripen from early July to late August. Bushes make a beautiful and useful ornamental shrub.

RANCOCAS. Midseason. Hardy, vigorous, productive; very large, firm berries of excellent sweet flavor.

HARDING. Midseason to late. Sweetest of all. Hardy, very productive; spreading growth. Longer fruiting season.

JERSEY. Late. Largest of 10 leading kinds, of fine appearance and average yield. Jersey is one of the best cultivated blueberries. Strong sturdy bushes.

RUBEL. Very late. Hardy, vigorous and very productive, upright grower; large, extra firm berries of good quality. Recommended for commercial use.

PRICES OF BLUEBERRY PLANTS

2 yr., No. 1, 6-12 inches, sure to grow; start to bear second season: 2 for \$2.25; 4 for \$4.15; 6 for \$5.75; 12 for \$11.00.

3-yr., No. 1, 12-18 inches, bearing-age bushes: Each \$1.85; 2 for \$3.45; 3 for \$4.90; 6 for \$8.85; 12 for \$15.95.

4-yr., No. 1, 18-24 inches, large size, bearing-age bushes: Each \$2.75; 2 for \$5.15; 3 for \$7.20; 6 for \$13.85.

Blueberries can be grown satisfactorily on sandy or muck soil that is strongly acid and well supplied with water. Soil not acid can be made so by mixing in acid peat, rotted leaves, or humus.

Blueberries For Market

Cultivated Blueberries for market are profitable, selling retail from 35c to 65c per quart. Berries are firm and ship well. Many new plantings are being made because profits are good.

Bushes last a lifetime and require no unusual care, yields vary from 3 to 9 quarts per bush depending on age. Plant 5 to 7 feet apart. Of the many varieties being offered we have selected the 4 that in our opinion are best, most productive.

Seedless
Concord

Two New Grapes That Are Different

SEEDLESS CONCORD

Think what this means in grape enjoyment. Now you can have the old delicious Concord with no seeds to bother with for eating, jellies, jams, pies. These new Seedless Concord grapes are a little smaller than standard Concord but otherwise have the same rich blue color, delicious, juicy, fine-flavored fruit, and hardy heavy-bearing vine. You can foresee what a market demand there will be when consumers know they can get a Seedless Concord.

By all means plant a few vines now and plan for a larger planting for market.

GOLDEN MUSCAT

California-Type Grapes
Now Hardy in the North

Here you have all the delicious, mild, sweet flavor; firm, meaty flesh; wonderfully fragrant aroma; and large size, beautiful, waxy, golden yellow fruit of the true California muscat. By crossing with hardy northern varieties these Golden Muscat vines are hardy and can be grown anywhere our northern grapes are grown. Golden Muscat should be money-makers because of their size, color, high flavor and unusual firmness and good shipping qualities. (Not a California grape.) Begins to ripen about 10 days after Concord. Now you can grow these delicious, California-type grapes yourself.
